Venom Synthetic Blend Racing 3000 Motor Oils

Venom® Synthetic Blend Racing motor oils are premium products designed to provide critical protection to high performance engines. Formulated with a blend of synthetic and conventional petroleum base stocks Venom® Synthetic Blend Racing motor oils are designed to give high performance under extreme racing conditions. API quality SJ additive technology is utilized along with additional performance boosts of ZDDP for extra antiwear and calcium based detergent to promote engine cleanliness. This blend of high quality components gives the extra performance required for racing conditions.

Properties

- Improved detergency to promote engine cleanliness
- High Sulfated Ash, Phosphorus & Sulfur (SAPS) formulation
- Provides the ultimate anti-wear protection for high performance engines
- Low oil volatility

Application Recommendations:

Venom® Synthetic Blend Racing motor oils are recommended for high performance engines where exceptional engines protection is needed. **This product is not for use in engines using catalytic converters as the concentrated additive formulation will damage emission components.**
