Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

| Personal protection | Avoid contact with the skin and the eyes. Eye protection or face shield should be used if material is used under conditions that increase the chances of splattering. Wash skin with soap and water if contact occurs. Launder soiled clothing. If spilled, take caution, as material can cause surfaces to become very slippery. Ensure adequate ventilation, especially in confined areas. |
|---------------------------|--|
| For emergency responders | Avoid breathing vapors or mists. Ventilate the area. Wear respiratory protection. |
| Environmental precautions | |
| Environmental precautions | See Section 12 for additional Ecological Information. |
| | |

Methods and material for containment and cleaning up

| Methods for containment | Cover with earth, sand, or other non-combustible material followed with plastic sheets to minimize spreading or contact with rain. |
|-------------------------------------|--|
| Methods for cleaning up | Excess liquid material can be collected using a scoop or shovel and stored for recycling or disposal. Prevent material from entering drains or waterways. |
| | 7. HANDLING AND STORAGE |
| Precautions for safe handling | |
| Advice on safe handling | Avoid contact with skin, eyes and clothing. Eye protection or face shield should be used if material is used under conditions that increase the chances of splattering. If contact is made, wash skin with soap and water. Launder soiled clothing. Maximum handling temperature is 70 degrees C (158 F). It is recommended to pump or transfer material at ambient temperature. |
| Conditions for safe storage, includ | ing any incompatibilities |
| Storage Conditions | Keep away from heat and sources of ignition. Keep containers closed when not in use. Follow first aid measures if contact occurs, and spill procedures if spill occurs. For packaged material: Store in a cool dry area. For bulk material: store in cool dry area. Always follow local, state, and federal guidlines for storage of material for amount stored. |
| Incompatible Products | Strong oxidizing agents. |
| 8. EX | POSURE CONTROLS/PERSONAL PROTECTION |
| Control parameters | |
| Exposure guidelines | This product does not contain any hazardous materials with occupational exposure limits established by the region specific regulatory bodies. |
| Appropriate engineering controls | |
| Engineering Controls | Showers Eyewash stations Ventilation systems. |
| Individual protection measures, su | ich as personal protective equipment |
| Eye/face Protection | If splashes are likely to occur, wear:. Goggles. Eye/face Protection. |
| Skin and body protection | Long sleeved clothing. Protective gloves can be worn, if material comes in contact with skin wash with soap and water. |
| Respiratory protection | If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with current local regulations. |
